SPRING TRADE
LIST

Quality

Our first consideration is the matter of quality, it being our policy to allow ample growing space in our Nursery for the proper root and top development of all of our products.

Efficiency

By maintaining a maximum of efficiency in our growing operations, we are able to offer Quality Nursery Stock at prices as low as, and frequently lower than the prices that are asked for stock which is not so well grown.

Dependability

For over sixty years our patrons have looked with confidence to us for their Nursery requirements. We list on the following pages not only a complete assortment of Hardy Ornamental and Hardy Fruit Stock, but we have also endeavored to modernize our list of varieties, having it include all of the newer, dependable varieties, as well as the older reliable sorts.

Phone Red Bank 2200

Visitors are always welcome at our Nursery. Our location on the Jersey Shore is easily reached from all points, due to splendid highways, and to our central location between New York and Philadelphia.

Hardy Field Grown Roses

Neither painstaking care nor expense has been spared in the production of our Roses, which we consider to be well-nigh perfect. However, because of our extensive plantings, and also our efficiency of production, we are able to offer these well grown plants at prices considerably below their true value.

Strictly No. 1 grade plants, Eastern grown, and budded on *Rosa multiflora japonica* (unless noted otherwise).
